

Supply List for Selvage Christmas Stockings

The following will be in a bin that Community Quilts will have in the open closet at Club:

Participants can get their backing, batting, lining (2 pieces) and bias binding (2.25" x two pieces for the top and around the stocking and enough for the loop) per the large size stocking pattern dimensions

Janet has lots of selvages to share and it works best on a thin batting or flannel that can be marked to have lines to follow. If you want to stay and sew, bring a sewing machine and white/off white thread to attach the selvages.
